běžná cena 28.400 Kč vč. DPH
v této nabídce **23.990 Kč** vč. DPH
(tato cena platí při objednání titulu do 31.5.2018)

Handbook of International Food and Agricultural Policies is a three-volume set that aims to provide an accessible reference for those interested in the aims and implementation of food and farm policies throughout the world. The treatment is authoritative, comprehensive and forward looking. The three volumes combine scholarship and pragmatism, relating academic writing to real-world issues faced by policy-makers.

A companion volume looking at the future resource and climate challenges for global agriculture will be published in the future. Volume I covers Farm and Rural Development policies of developed and developing countries. The volume contains 20 country chapters together with a concluding comprehensive synthesis of lessons to be drawn from the experiences of the individual countries.

Volume II examines the experience of countries with food policies, including those dealing with food safety and quality and the responsibility for food security in developing countries. The chapters address issues such as obesity, nutritional supplements, organic foods, food assistance programs, biotech food acceptance, and the place of private standards. Volume III describes and explains the international trade dimension of farm and food policies - both at the bilateral and regional level - and also the multilateral rules that influence and constrain individual governments.

The volume also looks at the steps that countries are together taking to meet the needs of developing and low-income countries. The volumes are of value to students and researchers interested in economic development, agricultural markets and food systems. Policy-makers and professionals involved in monitoring and regulating agricultural and food markets would also find the volumes useful in their practical work.

This three-volume set is also a suitable source for the general public interested in how their food system is influenced by government policies.
