

Připravili jsme pro Vás zvýhodněnou cenovou nabídku na titul, který právě vychází:

Analysis of Microplastics and Nanoplastics

autoři Huahong Shi, Chengjun Sun

v měkké vazbě, 436 stran

vyd. Elsevier, IX/2024

ISBN 9780443157790

běžná cena: 4.600 Kč

v této nabídce: **3.200 Kč**

(tato cena platí při objednání titulu do 31.10.2024)

Description

Analysis of Microplastics and Nanoplastics comprehensively overviews the common analytical methods for microplastic and nanoplastic analysis. With a strong focus on sustainability, the book covers the analysis process from sampling, separation/enrichment, observation to identification of polymer composition and a presentation of data. It presents the unique features of microplastics and nanoplastics as particle contaminants, their heterogenous distribution in the environments and biota, and the complexity and difficulty of their analysis compared with typical solvent contaminants and will provide researchers with a solid background on environmental issues, analytical challenges, and current state-of-the-different available methods for micro and nanoplastics to start/develop research.
