

Připravili jsme pro Vás zvýhodněnou cenovou nabídku na titul, který právě vychází:

Computer Vision: Challenges, Trends and Opportunities

autoři Md Atiqur Rahman Ahad, Upal Mahbub, Matthew Truk, Richard Hartley

v pevné vazbě, 348 stran

vyd. Taylor & Francis Ltd, VII/2024

ISBN 9781032317052

běžná cena: 3.560 Kč

v této nabídce: **2.450 Kč**

(tato cena platí při objednání titulu do 30.9.2024)

Description

Computer vision has made enormous progress in recent years, and its applications are multifaceted and growing quickly, while many challenges still remain. This book brings together a range of leading researchers to examine a wide variety of research directions, challenges, and prospects for computer vision and its applications. This book highlights various core challenges as well as solutions by leading researchers in the field.

It covers such important topics as data-driven AI, biometrics, digital forensics, healthcare, robotics, entertainment and XR, autonomous driving, sports analytics, and neuromorphic computing, covering both academic and industry R&D perspectives. Providing a mix of breadth and depth, this book will have an impact across the fields of computer vision, imaging, and AI. Computer Vision: Challenges, Trends, and Opportunities covers timely and important aspects of computer vision and its applications, highlighting the challenges ahead and providing a range of perspectives from top researchers around the world.

A substantial compilation of ideas and state-of-the-art solutions, it will be of great benefit to students, researchers, and industry practitioners.
