Description

The COVID-19 Textbook: Science, Medicine, and Public Health explores every facet of SARS-CoV-2, giving the reader an understanding of what is needed to control the spread of the virus, prevent and manage its pathological effects, as well as mitigate the impact of future pandemics. Each chapter is authored by leading global experts in the field and includes topics such as molecular biology, epidemiology, pathogenesis, immunology, diagnosis, and the latest prevention and treatment approaches. Edited by renowned educator and medical researcher Dr.

William A. Haseltine, physician-researcher, and chronic fatigue syndrome expert Dr. Roberto Patarca, it includes detailed references in every chapter, allowing easy access to comprehensive primary data.

- Offers a timely, reliable overview authored and edited by leading global experts in the multifaceted areas covered on SARS-CoV-2 and the COVID-19 pandemic. - Serves as an authoritative and comprehensive text to be utilized by physicians, medical professionals, researchers, students, public health professionals, and policymakers.
